This means that at least one person in the df has all 5 grades. I am trying to make one df with all the grades and the rest of the people in the df. The first column in the df should be the person's name, and the next column should be their grade. Right now I have this code: import pandas as pd # Create a list of people and grades people = ['Bob', 'Hank', 'Stacie', 'Angela', 'Terry', 'Kim'] grades = [1, 2, 3, 4, 5, 6] # Define a function that takes one person and returns a dictionary def grade_dict(person): grades = {'excellent': 1, 'good': 2, 'fair': 3, 'poor': 4, 'terrible 82157476af
