The goal is to remove tiles by selecting a group of at least three adjacent tiles of the same color. You must remove all tiles to complete a level. You lose points for every tile you have to remove manually, so plan your moves carefully! In this version you can pause and resume the game at any time, a great new feature! The max speed is used when all the playing field is filled with tiles and no place for a new one. If you reach that situation, just press the 'Max Speed' button to clear the field and have a fresh start. MAXSPEED 2 includes 180 different challenging levels. Try to solve them all or make your own levels using its built-in editor. Create as many files as you want, save them to your desktop or other folders on your computer. MAXSPEED 2 is a game where you need to find the solution by observing the objective, but hard to figure out. MAXSPEED 2 is a fantastic puzzler game for all ages.
